CAPS OF LOVE

MAKE A DIFFERENCE DAY, 2017

Caps of Love

Caps of Love began in 2008 by a woman named Valerie Mathieu. According to their website, she began "her mission to educate the public on the values of recycling correctly. Because plastic caps are very seldom accepted for recycling but do have value in bulk, she saw this as an opportunity to raise money. Seeing the great need in our communities for mobility equipment for special needs children." This organization has come a long way and we have been lucky enough to team up with this great organization. Staff, faculty and students donate caps have been involved in donating caps and coming together weekly to sort. We thank you for everything you do and are so happy to have you apart of the Saint Leo community!
